NATIONALITY

Kenyan

SKILLS

- **Programming & Analysis:** Python (Pandas, NumPy, Scikit-learn), SQL, R, Advanced Excel.
- **Visualisation & Reporting:** Power BI, Tableau, Excel Dashboards, Matplotlib, Seaborn, Streamlit.
- **Statistics:** Regression, Time Series, Multivariate Analysis, Hypothesis Testing, SPSS, STATA.
- **Machine Learning & AI:** Classification, Clustering, Dimensionality Reduction, Recommender Systems, NLP, Computer Vision, TensorFlow, Keras, Roboflow, Gemini API.
- **Data Workflow:** Data Cleaning, EDA, Feature Engineering, Model Evaluation, Web Scraping, Deployment.
- **Soft Skills:** Analytical thinking, attention to detail and data integrity, clear communication and presentation, teamwork.

CERTIFICATIONS

- **Data Science Bootcamp:** 365 Careers (Udemy), 2025 – present.
- **Data Analyst Bootcamp:** Analyst Builder, Feb – Jun 2025.
- **Qualitative Data Analytics:** Sonek Data School, Jul – Sep 2024.

PROFILE

Statistics graduate (BSc, Egerton University) with hands-on experience turning raw data into decisions through analysis, dashboards and predictive models. Currently a Marketing & Strategic Development Intern at Kenya Wildlife Service, where I analyse visitor and campaign data to guide marketing and strategy, following a finance internship at KTDA building KPI dashboards from large financial datasets. Proficient in Python, SQL, R, Power BI and Tableau, with a strong grounding in regression, time series and classification modelling. Seeking an entry-level Data Analyst or Junior Data Scientist role where I can turn data into clear, actionable insight.

EMPLOYMENT HISTORY

Marketing & Strategic Development Intern – Kenya Wildlife Service (KWS), Nairobi Jan 2026 – Present

- Analyses visitor attendance and revenue data to identify trends and seasonal patterns that inform marketing and strategic planning decisions.
- Designs and analyses visitor surveys, translating feedback into insights that shape campaigns and service improvements.
- Builds Excel and Power BI dashboards tracking campaign performance and departmental KPIs for management reporting.
- Conducts market and competitor research and prepares data-backed reports and presentations for senior management.

Finance Intern – Kenya Tea Development Agency Ltd (KTDA), Nairobi May 2023 – Jul 2023

- Cleaned and validated large financial datasets to ensure accurate inputs for monthly forecasting.
- Designed Power BI and Excel dashboards to track key financial KPIs, improving the efficiency and clarity of monthly reporting.
- Presented data-driven insights to the finance team that informed budgeting decisions.

PROJECTS

Breast Cancer Diagnosis Prediction – Python, Scikit-learn, Streamlit

- Performed exploratory data analysis on a clinical dataset to surface key patterns and predictive features.
- Built, tuned and compared multiple classification models to predict benign vs. malignant diagnoses, selecting the best performer on evaluation metrics.
- Deployed the final model as an interactive Streamlit web app that lets healthcare professionals enter patient data and receive real-time predictions with confidence scores.

EDUCATION

Bachelor of Science in Statistics, Egerton University 2021 – 2024

Key modules: Data Analytics, Statistical Modelling, Regression, Time Series, Multivariate Analysis, SQL, R Programming.

Data Science, Machine Learning & AI, Emobilis Technology Training Institute Sep 2025 – Dec 2025

Python, statistics, supervised and unsupervised learning, NLP, computer vision, deep learning, Streamlit.
